Our Commitment to the Environment

Saracen (U) Limited recognises that its business activities have a direct and indirect impact on the natural environment and is committed to proactively managing these in a responsible manner. This policy outlines the key commitments from Saracen (u) ltd to protect and preserve the environment for future generations.

Environmental Regulations & Legislation

We will comply with all relevant legislation, commercial requirements and codes of conduct regarding the business impact on the environment.

Operations & Business Practices

We will continually review our impact on the environment and introduce business processes to reduce our carbon footprint and actively target carbon reductions:

- We will systematically measure the carbon footprint of our industry.
- We will implement processes for reducing carbon emissions across the organisation, including areas such as:
 - Fuel consumption
 - Energy consumption
 - Water usage
- We will see to reduce waste and recycle materials where possible and where the means to recycle materials exist

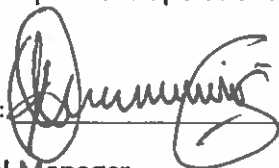

Awareness & Communication

- We will encourage and enable staff to make a positive contribution to improving the environment
- We will engage with our customers and suppliers on environmental initiatives
- We will communicate the progress of the Climate Action Programme to all of our stakeholders in an open and transparent manner.

Governance

Environmental Co-ordinators have been appointed from to review the business carbon footprint and to implement operational measures to reduce carbon emissions.
